

Briefings Platform

Fully integrated with our Time & Attendance System, Briefings Platform allows management to efficiently distribute site briefings to teams which they can read, acknowledge and/or action from their own device.

Benefits

- Multiple briefing types
- Fully integrated with Time & Attendance System and operative records to avoid duplication of data input
- Create user groups – allowing certain briefings to be distributed to a particular work group i.e. a company, or work level
- Review all responses to briefings on the platform with timestamps and exportable data

COVID-19

DataScope's Briefings Platform has been used to distribute COVID-19 return to work forms via email to operatives, they can view videos, complete forms and view/download any supplementary documents from a PC or smartphone.

Briefings sent to operatives can include:

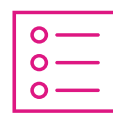

Forms

Videos

COVID-19
